LeetCode — Portfolio — Palakkad, Kerala – 679502

Professional Summary

Aspiring Full Stack Developer with hands-on experience building responsive, scalable web applications using React.js, the MERN Stack, JavaScript, Python, MongoDB, and MySQL. Skilled in developing RESTful APIs, authentication systems, and database-driven solutions, with a strong foundation in CRUD operations, debugging, and software development methodologies. Completed a Full Stack Development Internship at Litmus7 Systems Consulting Pvt. Ltd., delivering a production-ready Catalogue Management System. Passionate about software engineering, problem solving, and continuous learning, with active practice in Data Structures and Algorithms on LeetCode.

Technical Skills

Programming Languages: Python, JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Bootstrap, Responsive Web Design, Framer Motion, Vite

Backend: Node.js, Express.js, RESTful API Design & Integration

Databases: MongoDB, MySQL, Database Design (DBMS)

Tools & Platforms: Git, GitHub, Postman, VS Code, npm

Core Concepts: CRUD Operations, Authentication & Authorization, API Integration, Full Stack Development (MERN), Data Structures & Algorithms, Problem Solving, Debugging, Agile/Collaborative Development

Experience

Full Stack Development Intern

Litmus7 Systems Consulting Pvt. Ltd., Kochi

- Developed and deployed full-stack web applications using HTML, CSS, JavaScript, Python, and MySQL, gaining hands-on exposure to end-to-end software development workflows.
- Designed and implemented a Catalogue Management System with full CRUD functionality, reducing manual catalogue updates by automating data entry, retrieval, and validation processes.
- Integrated responsive frontend interfaces with backend services and APIs, optimizing data handling workflows and improving overall application performance.
- Collaborated with cross-functional development teams using industry-standard coding practices, version control (Git), and Agile software development methodologies.

Projects

AI-Powered Learning Management System – GitHub

- Built an AI-powered LMS using Next.js and React.js, delivering a modern, responsive UI and winning **First Prize** at a college Hackathon.
- Architected scalable course management features with reusable, maintainable components.

Online Course Management Portal - – GitHub - – Live Demo

- Built a full-stack LMS platform using the MERN Stack (MongoDB, Express.js, React.js, Node.js) supporting course creation, enrollment, and management.
- Implemented secure JWT-based authentication and RESTful API integration, enabling role-based access for students and instructors.

Weather Application – GitHub

- Developed a responsive weather application using React.js, Vite, and CSS3, achieving fast load times through Vite's optimized build pipeline.
- Integrated the OpenWeather API with Framer Motion animations to deliver real-time weather data and a dynamic, engaging user experience.

Catalogue Management System – GitHub

- Developed a full-stack catalogue management system with complete CRUD functionality and MySQL integration for persistent data storage.
- Designed responsive, user-friendly interfaces and implemented robust data validation, improving data accuracy and reducing input errors.

Education

B.Tech in Computer Science & Engineering (AI & Data Science)

2024 – Present

Mentor Engineering College, Kerala

CGPA: 7.90

Higher Secondary Education (Science)

2022 – 2024

Kerala State Board

Percentage: 96%

SSLC

2022

Kerala State Board

Percentage: 97%

Certifications & Achievements

- Full Stack Development Internship Certificate** — Litmus7 Systems Consulting Pvt. Ltd.
- 5G & Internet of Things (IoT) Workshop Certificate** — IICT GMBH.
- First Prize – Hackathon** for developing an AI-Powered Learning Management System.
